**TRAINING**

MSI Repackaging Workshop with Flexera AdminStudio Basic

Description

This instructor-led course will teach you to use AdminStudio to repackage traditional setups into Windows Installer packages and customize those packages to meet specific needs.

In this course, you will also gain experience in creating transforms for existing third-party MSI packages and identifying and resolving conflicts between packages before deploying your applications.

Course outline

- Introduction and Overview
- Preparing for Application Migration
- Creating Workflow Templates and Projects
- Repackaging Process
- Testing the Repackaged Installation
- Using InstallShield Editor
- Advanced InstallShield Editor Topics
- Using Custom Actions
- Creating a Windows Installer Transform
- Application Management
- Software Repository
- Isolating Applications

Course duration (days): 4

Trainer language(s): EN, DE

Requirements:

- In-depth knowledge of Windows Installer
- You can bring your own notebook computer with your problem applications
- If you do not bring applications, some will be available for your use

Course reference: RN-WS-1023 - 1.06

Cost: 2200 EUR excl. VAT
